

RCBot2 map teleport incident # 16

Map: dod_colmar

Bots in this incident...

1. [RCB]wootman @ Tick: 8216-17 Maptime: 02:03 (video 1 - 01:38)
2. KickAss @ Tick: 18460 Maptime: 04:36 (video 2 - 02:06)
3. willywonka @ Tick 33607 Maptime: 08:24 (video 3 - 03:33)
4. [m00]m1lk @ Tick: 36095 Maptime 09:01 (video 3 - 04:10)

In close to 7 minutes 4 bots teleported on dod_colmar, 3 allied bots and one axis bot.

Again, these are so fast you could miss them easy.

Incident 1

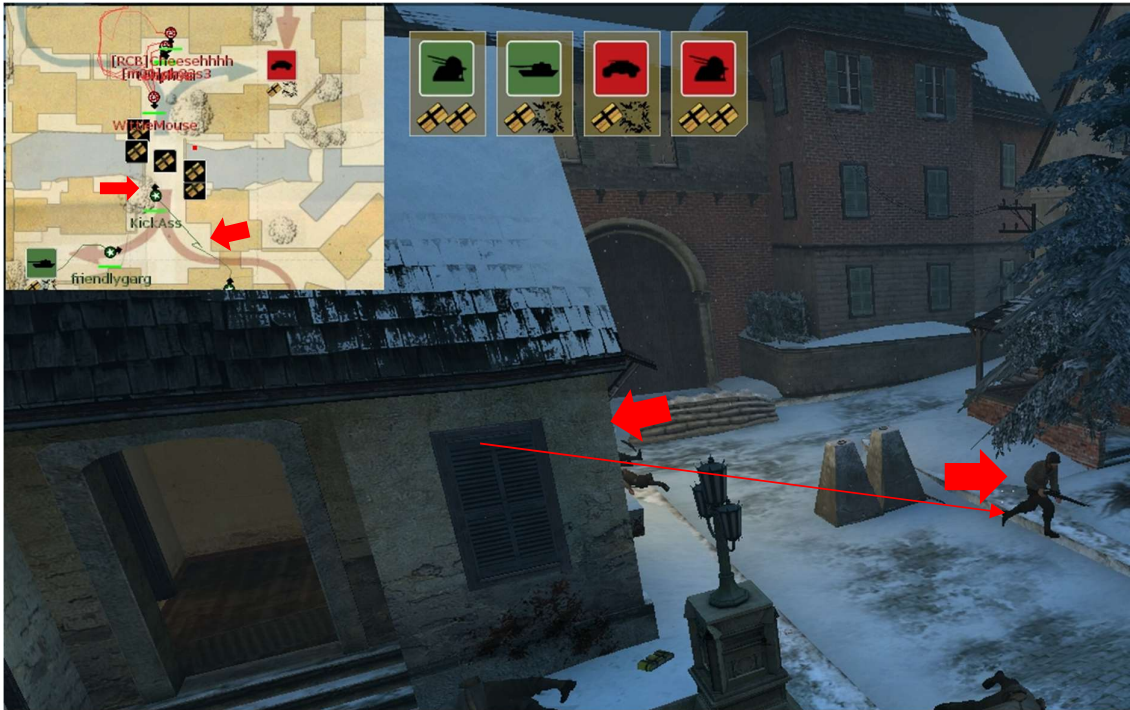

[RCB]wootman is first seen in tick 8216 then again in 8217 at the map origin, he moved from inside the house by the bridge.

Tick 8217...

Incident 2

KickAss moves from around the corner to the map origin, this frame is the first movement...

Incident 3

Willywonka teleports a very short distance and moves towards the map origin, this frame is the first movement...

Incident 4.

[m00]m1lk teleports from across the bridge to the map origin. This frame is the first movement...

So, this can be on any map in Day of Defeat Source I would say.

Likely not many in TF2 have seen this and as dod:s shows, given the right map where bots may get trapped under the map, only then you notice those incidents, but not ones like this...unless you really look hard.
